

COMPANY PROFILE

HTP relocated from Central London to Richmond in 1990. HTP has two Directors based at the principal office in Richmond, Surrey, together with associates and technical and administrative support.

OUTLINE SCOPE OF WORK FOR TYPICAL HOUSEHOLDER RESIDENTIAL EXTENSION PROJECTS

Depending on Client requirements, HTP can provide concept, architectural design, and Town Planning Applications, and in addition, management and coordination services from inception to completion of the project.

Depending on the scope of the Appointment, the various disciplines may include:

- Concept and feasibility design, making Planning Applications, preparing Tender packages, drawings for Buildings Regulations Approval and construction purposes, administration of the Contract, and periodic Site Inspections. Landscaping design can also be carried out in house, if required.
- Structural Engineering and drainage design: (an appropriately experienced Company for the project can be proposed by HTP.)
- Energy and Sustainability Reports, Flood Risk Assessments etc (by Specialist Companies proposed by HTP.)
- For any schemes near to trees, an Arboriculture survey and Report will be required to accompany a Planning Application. A specialist will need to be appointed by HTP on behalf of the Client.
- Party Wall and other Consultants/ Specialists may need to be appointed on the Client's behalf depending on the size, complexity and nature of the project.
- Approx dimensions taken on site will normally be sufficient as a basis for Planning Drawings, but on larger schemes, projects in Conservation areas, schemes close to Trees or in flood risk locations, an electronic survey of site and buildings may be essential.
- For properties in Flood risk areas, a flood risk assessment may be required. For full assessments, a specialist will need to be appointed by HTP on behalf of the Client.
